CSE 113 Fall 2009 - Lab 1 Grading

Grader: Yuan Zhang (yuanzhan@buffalo.edu)
Please email grader with any questions regarding your lab score.

Grading for this lab will be based on how many of the exercises you finish. In the table below, the level you achieved will be indicated. Please note that if your code does not have all the pieces of the previous exercises, then you will be stopped at that level. If an exercise tells you to remove things, that is taken into account. But when you remove something, you need to add something to complete the exercise. That is how we will know you completed the exercise. If you are going to stop working on the lab early, make sure you complete an entire exercise (any removal s and insertions to maximize your credit).

Exercise	Total Points earned if up to this exercise completed	Exercise	Total Points earned if up to this exercise completed
2.1		3.8	44
2.2	2	3.9	52
2.3		3.10	56
2.4	4	3.12	60
2.6	8	3.13	64
2.10		3.14	
2.11		3.15	68
2.12	12	3.16	72
2.13	16	3.17	76
3.1	20	3.18	80
3.2		3.19	84
3.3		3.20	
3.4	24	3.21	
3.5	28	3.22	92
3.6		3.23	
3.7		3.24	100
Code from fig 3.3	36		

You completed up until Exercise:
Comments:

If the student does not submit the example leaves-and-wombats scenario, deduct 10 points from the score earned in the table above. Indicate here if the student was deducted:

Student's Total Score for Lab 1:
