

EAS230 online submission instruction:

Note: The N: Drive on the Windows NT systems (Citrix client logs on to) is the same as the Eng home for any student

On campus:

After logging into any eng linux machine (Bell 101, Furnas 211 etc.).

1. Right click on Desktop
Click on first option 'Open Terminal' OR

On the bottom left most corner Click on UB->System Tools->Terminal

2. Type in `ssh unix.eng.buffalo.edu`
(for first time users might ask to add it to permanent hosts, simply say yes or enter)
Enter eng password (same as the one used to log on to the computer)

3. You are now logged into the eng home (i.e. N: drive)

Lets say we have to submit HelloWorld.cpp from lab1 in our workspace EAS230A (or B)

4. Change directory to workspace
`cd EAS230A (or EAS230B)`
5. Change directory to the current lab (e.g. lab1)
`cd lab1`

if you are enrolled in EAS230A

6. `submit_eas230a HelloWorld.cpp`

if you are enrolled in EAS230B

`submit_eas230b HelloWorld.cpp`

Note: Unix is case sensitive, so follow the proper case, do not uppercase the commands like `cd`, `ls`, `pwd`, `submit_eas230a/b`

Off campus or any machines not on Eng domain:

ftp your files to `unix.eng.buffalo.edu` (using any ftp client like `psftp`, Filezilla or `WSftp` etc.) then login to `unix.eng.buffalo.edu` using `putty`

and follow the same as steps from 4 depending on the directory that you transferred your files into using the ftp client.
