

Introduction to CSE Facilities

University-wide computing support
CSE Department
SENS Facilities

University-wide Computing Support

- CIT provides campus-wide computing
- not specific to any particular Departments
- provide campus-wide infrastructure
 - network (inter-building, dial-in, Internet, OpenPorts)
 - Email, USENET news, Web-hosting
 - UNIX-based timesharing
 - public computing sites (some Windows, some UNIX)
 - campus-wide software licensing (UBMicro)

- Contacting CIT:
 - Web: <http://www.cit.buffalo.edu/>
 - Email: cit-helpdesk@buffalo.edu

CSE Department

- CSE Department has systems separate from CIT
- Student Computing includes:
 - hadar: central fileserver
 - pollux: SunRay server
 - yeager: remote logins
 - pegasus: large batch jobs
 - Grad Lab: SunRay terminals, PC's, printer, card access
 - Office Workstations: SunRay terminals

- Contacting CSE Support:
 - Web: <http://www-local.cse.buffalo.edu>
 - Email: cse-consult@cse.buffalo.edu
- Information:
 - “Alerts” on main Web site
 - <http://www-local.cse.buffalo.edu/Consulting/>
 - sunyab.cse.general, sunyab.cse.grads

SENS Facilities

- Science and Engineering Node Services
- separate fileservice, email
- Citrix (“Winframe”) server
- several lower-level CSE courses taught in SENS labs (mostly Bell 340)

- Contacting SENS support:

- Web: <http://www.eng.buffalo.edu/computing/>
- Email: nodehelp@eng.buffalo.edu
